1. About Meridian Global Technologies

Meridian Global Technologies Pvt. Ltd. is a B2B software company providing workflow automation and analytics tools to enterprise and mid-market clients across the technology, financial services, and retail sectors. Founded in 2016, the Company is headquartered in Bengaluru, with additional offices in Pune and Singapore, and a fully remote engineering pod supporting European client hours.

As of the current fiscal year, the Company serves over 340 enterprise clients globally and employs approximately 410 people across all functions.

2. Mission and Vision

Mission: To help enterprise teams eliminate manual, repetitive workflow bottlenecks through intelligent automation, so people can focus on higher-value work.

Vision: To be the default automation layer for enterprise operations teams worldwide.

3. Organizational Structure

The Company is organized into the following major functions, each led by a function head reporting to the CEO:

Function	Head	Core Responsibility
Engineering	CTO	Product development, infrastructure, security
Sales & Marketing	Chief Revenue Officer	New business, renewals, brand
Customer Success	VP Customer Success	Onboarding, retention, support
People & Culture (HR)	Head of HR	Talent, culture, employee experience
Finance & Admin	CFO	Financial planning, accounting, facilities
Legal & Compliance	General Counsel	Contracts, regulatory, ethics

Each function operates its own sub-teams; organizational charts for individual departments are maintained on the internal People Directory and updated automatically as role changes are processed through HR.

4. Leadership Principles

Decision-making across the Company is guided by the following principles, which complement the Core Values described in the Company Rules & Code of Conduct document:

- **Bias toward action** — a reasonable decision made quickly is usually better than a perfect decision made slowly.

- **Data-informed, not data-paralyzed** — use data to support judgment, not replace it.
- **Default to transparency** — information is shared broadly within the Company unless there's a specific reason not to (e.g. compensation, active legal matters).
- **Customer proximity** — every function, not just Sales and Customer Success, is expected to understand client pain points directly.

5. Office Locations

Location	Type	Approximate Headcount
Bengaluru (HQ)	Full office	240
Pune	Full office	95
Singapore	Regional office	35
Remote (distributed)	Fully remote	40

All offices operate standard local business hours, with the Bengaluru and Pune offices following the working hours defined in the HR Employee Handbook.

6. How the Company is Structured Internally (Systems)

Employees interact with several central internal systems, each owned by a specific function:

- **HR Portal** — leave, attendance, payroll, onboarding (owned by HR)
- **Finance Portal** — expense claims, budget tracking (owned by Finance)
- **IT Portal** — asset requests, ticketing, access requests (owned by IT)

- **People Directory** — org charts, employee search, reporting lines (owned by Corporate Communications, data sourced from HR)

Access to each system’s underlying data is governed by the respective department’s access policy — for example, department-specific salary or budget data is not visible company-wide even though the systems themselves are broadly accessible for self-service tasks like submitting a leave request or expense claim.

7. Company Calendar and Key Events

The Company holds an all-hands meeting on the first Friday of every month, where leadership shares business updates, and a quarterly town hall with a live Q&A session. The annual offsite is typically held in Q1, location communicated by Corporate Communications each year.

8. External Communications

Only designated spokespeople (CEO, function heads, or individuals explicitly authorized by Corporate Communications) may speak to media, analysts, or on public panels on behalf of the Company. Employees approached by media or press regarding Company matters should redirect the inquiry to comms@meridianglobal.example rather than responding directly, consistent with the Social Media Policy in the Company Rules & Code of Conduct document.

9. Contact

General questions about Company structure or communications should be directed to comms@meridianglobal.example. Department-specific questions should go to the relevant department’s contact channel as listed in their respective policy documents.
